Cup Song

Step by step

Find a hard plastic cup that is fairly heavy.

You can also use a disposable paper or plastic cup, but the weight of a heavier cup keeps it from flying out of your hands when you're performing the song.

1. Place the cup upside down on a table or hard surface. It should be directly in front of you.

2. Clap twice

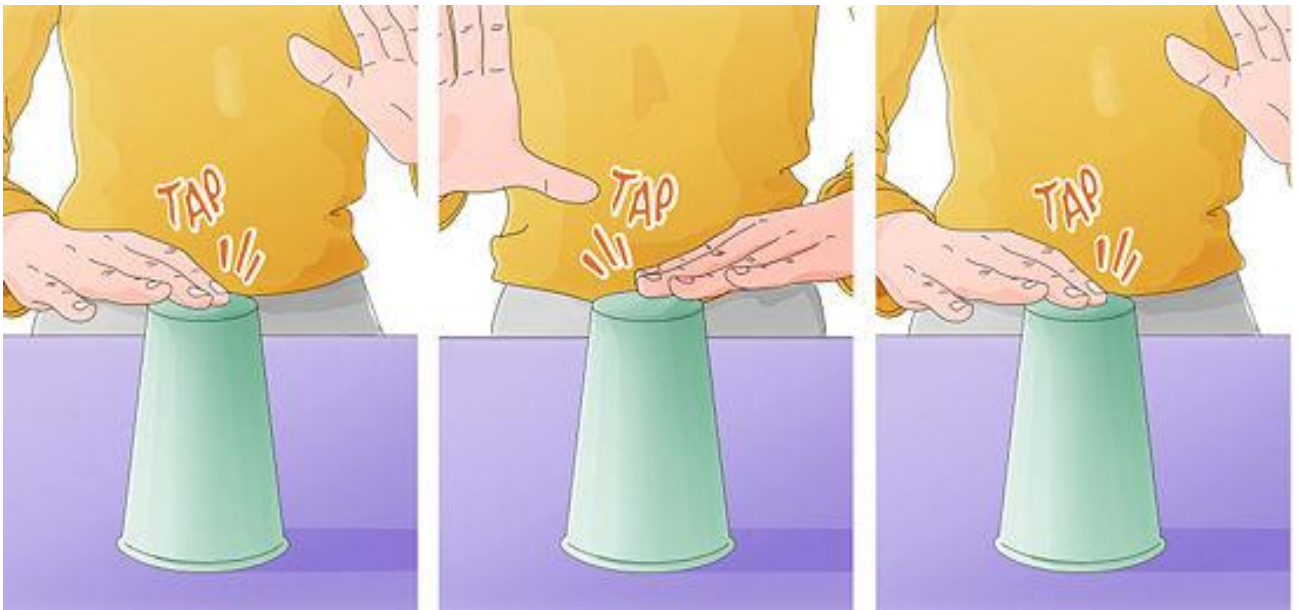

3. Hit the top of the cup **three times**:

first with your *right hand*,

then with your *left hand*,

and again with your *right hand*.

4. Clap Once

5. Pick up the cup with your right hand so it's about (5 cm) above the table.

6. Move the cup approximately (15 cm) to your right and set it down.

It should make a noise when it hits the table.

6. Move the cup approximately (15 cm) to your right and set it down.

It should make a noise when it hits the table.

7. Clap once

8. Turn your right hand upside down and grasp the cup

Your thumb should be facing down, toward the table.

9. Lift the cup and tap the opening to your left palm

10. Place the cup back down on the table, right side up

Don't let go of the cup

11. Lift the cup again and tap the bottom to your left palm

12. Hold the bottom of the cup with your left hand

13. Slap your right hand down on the table in front of you

14. Cross your left arm over your right, and place the cup upside down on the table

It should make a noise
